GE LED Bright Stik™

GE’s LED Bright Stik™ illuminates spaces instantly. Its sleek cylindrical shape fits in place of a 40-100 watt incandescent, halogen, and CFL. Use as a longer life, lower energy alternative to CFL.

LOW-COST OPERATION
- Uses 80% less energy than incandescent and 20% less energy than CFL
- For example, using only 10 watts of energy, saves over $82 in energy costs over the rated life of a lamp versus a standard 60 watt incandescent lamp based on $0.11 per kWh. Provides similar light output (760 vs 840 lumens).
- Instant full brightness
- Energy efficiency and long life mean fewer lamp replacements versus standard incandescent and halogen light sources

COLOR RENDERING
- Available with a CRI of 80

COLOR TEMPERATURE
- Available in 2700K, 2850K and 5000K

LONG LIFE
- 15,000 hour rated life (L70)
- Lasts 50% longer than CFL (10,000 hrs)
- Lasts 15X longer than incandescent/halogen (1,000 hrs)

ENVIRONMENTALLY CONSCIOUS
- These lamps are energy efficient, contain no lead or mercury, and are compliant with material restriction requirements of RoHS
- Worry-free use and disposal

GE QUALITY AND RELIABILITY
- 3-year limited warranty

* The life rating is based on the hours of operation the lamp will provide before reaching 70% of its original rating (L70)
** Minimum order quantity = 3

Location, damp – Exterior or interior location that is normally or periodically subject to condensation of moisture in, on, or adjacent to, electrical equipment, and includes partially protected locations.

Location, dry – Location not normally subject to dampness, may include a location subject to temporary dampness, i.e., building under construction, provided ventilation is adequate to prevent an accumulation of moisture.

Location, wet – Location in which water or other liquid can drip, splash, or flow on or against electrical equipment.

Notes: 1) Product descriptions ending in “TP” indicate a carded blister or clamshell package nested in a tray for shelf display. Cards also designed for hook display.
2) LED A19 Locking device works on PC: 85791, 85792, 89898, 62182, 89899 and 89900
