ready to get to work transforming your office?

Give us a call or visit gelighting.com/office.
inspire
creating a comfortable place to work

An office should be designed with comfort and productivity in mind, including lighting that reflects the tasks at hand. That’s where your GE Lighting team can help. We’ll work with you to determine the best lighting solutions for your needs.

But the inspiration begins with you. The first step is to listen and learn so that we can customize a professional lighting solution that will work harder for you. At GE Lighting, delivering product innovation, exceptional service and a better ROI is all in a day’s work.

the GE Advantage™

1. Discovery & Design
Understanding your initiatives, goals and objectives. Taking inventory of your infrastructure and technology to optimize a design that will meet codes, legislation and goals.

2. Innovative Systems
Selecting the best possible technology innovations from a broad portfolio of office lighting solution platforms.

3. Seamless Distribution
Ensuring products are available and on time through national distribution locations with local support networks.

4. Integration Services
Providing turnkey installation solutions through our network of partners, from new construction to existing infrastructure maintenance.

5. ROI Optimization
Helping you see financial benefits – as soon as the first month – through utility rebate capture programs and financing options.
Look to GE Lighting for office lighting solutions that create low luminance contrasts around workstations, minimize glare on computer screens and add a touch of brilliance to the main conference room. When the doors open for the day, you’ll see why so many companies turn to GE Lighting for professional lighting solutions that work overtime.

ONE POINT OF CONTACT SOLVES ALL OF YOUR CHALLENGES

To request a free, customized needs analysis or to learn more about how GE Lighting can help you achieve your goals, contact your GE Lighting representative or visit gelighting.com/office.
make your office work

DID YOU KNOW?

Utility Rebates Lower Costs
In addition to energy savings, LED solutions can also reduce the overall cost of ownership through rebate incentives. GE Lighting will work with you to determine eligibility requirements and to coordinate your rebates through your local utility.
explore high-performance solutions for all of your professional lighting needs
open office lighting

We’ve designed Lumination™ LED Luminaires in linear, recessed and suspended versions to bring beautiful ambient, direct and indirect lighting into the workplace – along with the added bonus of energy efficiency and easy maintenance.

Let our team of office lighting experts put your team in the best light possible.

MetLife

GE Lighting’s solution for MetLife

We upgraded to energy-efficient lighting solutions in MetLife’s 650,000-square-foot facility and 10 office parking lots.

OPERATING IMPACT

- Nearly 3.5 million kWh reduction annually
- $360,000 in electricity cost savings/year

ENVIRONMENTAL IMPACT

- 2,000 metric tons of CO₂ emissions eliminated per year
- Equal to planting 570 acres of new trees or taking 400 cars off the road for a year
designed together
to work together

Break free from restrictions, make a striking statement and seamlessly connect overhead design elements with a revolutionary system from GE and USG.

Working together, Lumination™ LED BL Series Luminaires from GE and Logix™ Integrated Ceiling Systems from USG deliver advanced engineering and a sophisticated aesthetic that frees architects, contractors and designers to bring their visions to life.

Logix ceiling systems maximize lighting, acoustics and energy savings. Lumination BL Series Luminaires feature thinner-than-ever LED profiles for a totally new aesthetic. Designed together, they work together to combine form, fit and function in one flexible, energy-saving, environmentally conscious system.

BL Series
private office lighting

Create a private office environment that reflects your corporate brand with the latest lighting solutions from GE Lighting.

We’ve mastered the art of maximizing aesthetics using light as a tool, finding the right combination of overhead fixtures, architectural lighting, downlighting and other innovative options to make the perfect statement about your brand.

And, at the end of the day, our sensors will turn off the lights behind you.

> **GE CAPITAL REAL ESTATE**

GE Lighting’s solution for GE Capital Real Estate in Germany

Replacing the linear fluorescent lighting on all six floors with full-LED solutions made a significant impact economically and aesthetically.

**OPERATING IMPACT**

- 26% reduction in energy consumption
- Significant maintenance savings
- Meets current fire safety standards
corridor lighting

Light the way for employees, clients and other guests with the latest looks in corridor lighting from GE Lighting.

Dull, dark, unsafe corridors become a thing of the past with the addition of attractive downlighting, track lighting or strategically placed wall washes. Or, opt for overheads in a variety of sizes, shapes and styles.

And, finish it all off with sensors to ensure added security won’t come with added costs.

GE Lighting’s solution for GE’s Madrid Headquarters

We replaced all fluorescent bulbs with Lumination™ LED Luminaires for energy savings and improved quality of light.

**OPERATING IMPACT**

- Energy savings of more than 57% compared to original lighting
- Estimated three-year return on investment

**ENVIRONMENTAL IMPACT**

- Reduced CO₂ emissions by 123 tons compared to fluorescents
collaboration area lighting

Setting the mood for successful meetings, many times, starts with professional office lighting solutions from GE Lighting. We’re the pros at creating visually appealing environments that reflect a company’s image – and make visitors feel at ease.

Does that mean warm ambient light from stylish overhead LED fixtures? Maybe architectural lighting, wall washes or downlighting to direct eyes to important details? There are no limits to the possibilities with GE Lighting.

Our team looks forward to meeting with you, discovering your goals and bringing them to life for you.

welcome

reception lighting

Greet clients who walk through the door with a reception area that is bright, cheerful and welcoming from top to bottom.

Our Lumination™ LED Luminaires, while minimalist in design, can fill the area with light. Complement those with the dramatic effects of down-lighting or track lighting – and the added aesthetic of wall washes or accent lighting – to make the perfect opening statement about your office.

At GE Lighting, the focus is on creating a custom solution that will help make every first impression a positive one.

Allsteel®

GE Lighting’s solution for Allsteel and Gunlocke

We worked with our client to create a soothing environment to welcome visitors as they walk through the doors.

OPERATING IMPACT

- 0.75 watts per square foot for ambient illumination
- Display lighting power density of 0.5 watts per square foot

ENVIRONMENTAL IMPACT

- Achieved LEED-CI Gold Certification
outdoor lighting

Whether you operate from 9 to 5 or spend late nights at the office, our GE outdoor lighting solutions can bring the peace of mind that your parking garage is well-lit and secure after dark.

Evolve™ area, flood, wall fixtures and post tops deliver excellent illuminance and efficiently direct the light where it’s needed without wasteful or unwelcome light spill into surrounding properties.

On top of being extremely reliable, efficient and low maintenance, our choice of aesthetics in outdoor lighting designs proves that better lighting will always be in style.

GE Lighting’s solution for Marriott.

Marriott chose us to upgrade its interior and entrance lighting and to relamp the parking lot and garage space at its headquarters.

OPERATING IMPACT

• More than $120 million saved in combined energy and maintenance costs annually
• More than $130 million in utility rebates and EPAct savings
• 66% decrease in annual electricity usage

ENVIRONMENTAL IMPACT

• Eliminated 1.4 million pounds of CO₂ emissions annually
• Equal to planting 162 acres of new trees or removing 114 cars from the road for a year

sign lighting

A dim, half-lit or flickering sign is not a good sign about you or your company. That’s why GE Lighting has designed sign lighting solutions that can make your brand shine.

Our Tetro® sign lighting delivers a bright uniform light, capturing otherwise wasted light and directing it toward the illuminated surface. Available in traditional or neon-like lighting, there’s a size and shape to fit every size letter or box sign.

We make it easy to install with an exceptionally long life, which will make it easy to maintain your professional image for many years to come.

- Tetro® Contour
- Tetro® Contour LS

Public Storage®

GE Lighting’s solution for Public Storage

Inefficient fluorescent tube lighting in box and pole signs is being replaced with our Tetro® LED solutions in more than 2,000 locations.

OPERATING IMPACT
- $1.9 million in total annual savings
- Average 73% lighting energy reduction per property

ENVIRONMENTAL IMPACT
- 1.3 million fewer kWhs used
- Equal to taking 149 cars off the road for a year or planting 208 acres of trees
backroom/warehouse lighting

Light the way for the heavy-duty lifting and inventory control that goes on in the backroom and warehouse with innovative solutions from GE Lighting.

Our Lumination™ LED Luminaires or LED and linear fluorescent lamps can deliver the bright light needed for stocking, assembling, sorting or other assorted duties. It helps ensure that no detail goes unnoticed.

Designed for energy savings, low maintenance and long life, GE Lighting’s backroom and warehouse lighting solutions will work hard for many years. And that’s really the bottom line.

getting started

We’re excited to transform your office space, improve your bottom line and inspire employees, clients and visitors. It doesn’t get much easier than this:

1. You answer a few easy questions.
2. We conduct a simple lighting audit.
3. We provide a comprehensive professional office lighting plan.
4. We help facilitate an application for a financing plan.
5. We help with utility rebates, where available and qualified.
6. You watch the savings roll in after installation.

are you ready to make a smart investment?

Find out just how much GE Lighting solutions for offices can pay you back. Let us conduct your free lighting audit. And be sure to ask how we can help you apply for GE Capital financing – no money down. Every project and the potential savings are different.

For more detailed information on the broad range of office lighting solutions to meet your indoor and outdoor lighting needs, or to schedule an audit, visit us at gelighting.com/office.
