Wireless Sensor (WHS100)

Daintree Wireless Solution

The Wireless High-Bay Sensor Adapter (WHS100) is part of the Daintree product portfolio, an open networked wireless controls solution for lighting and building control, monitoring, and optimization. Daintree controls provide a highly scalable solution to address evolving environmental regulations and transform spaces into intelligent environments for buildings of all sizes.

Consisting of three components, Daintree includes sensors and controls at the edge, an open API cloud platform, and software apps to help facility managers make decisions based on how space and assets are actually being used using a data-rich sensor network. Benefits of adding wireless Daintree controls include:

- Up to 50% Energy savings across lighting, HVAC, plugload, fans and more
- Visibility into energy usage, trends and insights to optimize operations
- Automated demand response, superior comfort and lower maintenance expense

Daintree Wireless Solutions Product Overview

The Wireless High-Bay Sensor (WHS100) is a line-powered control/sensor device within the Daintree wireless building control solution. It enables wireless control of individual luminaires and with an integrated motion sensor, provides a one-box solution for cost-effective occupancy based control designed for indoor and outdoor lighting applications.

The WHS100 provides ON/OFF and 0-10V dimming control of ballasts and LED drivers. Its familiar form factor provides for simple installation through a standard ½” knockout, making it an extremely versatile solution for a wide range of fixture types including high bay, mid-bay, and low-bay luminaires for industrial and warehouse facilities. With a wide operating temperature range and wet location rating, the WHS100 is well suited for manufacturing, parking and area lighting.

Using open standards ZigBee PRO wireless communications, the WHS100 operates seamlessly with other standard ZigBee PRO wireless products in the Daintree ControlScope ecosystem to provide advanced lighting controls, such as smart scheduling, daylight harvesting, task tuning and more, in addition to occupancy-based control. With built-in metering, the WHS100 can monitor and measure the energy consumption of the controlled lighting load, and also enable automatic fault detection.
Wireless Sensor (WHS100)

Warranty
Current offers a limited Warranty across its Daintree Portfolio. The table below summarizes the Warranty terms. For additional information, please review the Limited Warranty Document on the Daintree Homepage.

<table>
<thead>
<tr>
<th>Component</th>
<th>Warranty Period</th>
<th>Coverage Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Daintree Software</td>
<td>1 year (IoT Cloud installed Software) Subscription term (SaaS) 3 years</td>
<td>GE warrants that as long as all applicable fees due are paid, Daintree Software will substantially conform to the applicable published documentation and published specifications for the Warranty Period.</td>
</tr>
<tr>
<td>System Controller</td>
<td>3 years</td>
<td>100% parts coverage. Warranty for non-Daintree software (such as operating system software) is provided by the respective software; GE makes no warranty with respect to non-Daintree software.</td>
</tr>

Specifications

Dimensions (w/mounting) 3.54” L x 3.54” W x 1.78” H (90mm L x 90mm W x 45.4mm H)
Operating Environment -40°F to +158°F (-40°C to +70°C) 95% RH, non-condensing Indoor/Outdoor
Enclosure Raintight, IP66 White
Indicators Green LED (motion detection) Red LED (off for normal operation)
Mounting Standard ¼” knockout mount
Input Power 120-277 VAC 50/60Hz
Power Consumption 0.32W @120/277V (Idle, Relay OFF) 0.58W @120/277V (Relay ON)
Power Measurement Within 2% accuracy 0.04-5A range Sampled every 150 sec Aggregated to every 60 min intervals
Load Rating 5A @ 120-277 VAC
Load Types General Use, Electronic Ballast
Ballast/Driver Control On/Off 0-10V Dimming
Dimming Output 0-10V, 15mA (max sink)
Motion Sensor PIR technology
Sensor Lens and Mounting Height Interchangeable sensor lens 360˚ lenses included (8ft, 20ft, 40ft) Mask included (suitable for all lenses)
Wireless Technology ZigBee PRO (HA, BA)
Radio Properties 2.4 GHz +8dBm transmit power
Compliance UL listed FCC Part 15
Warranty 5 Years
