**Important Notice** - Because dimming equipment, applications, and conditions of use are many, varied, and beyond GE's control, this information necessarily is based on limited samples sizes and testing.

This list only included dimmers that have been tested with the GE luminaires listed. There may be other dimmers on the market that are compatible with these GE luminaires. If you have a question about a particular dimmer that is not on the list, please contact GE to see if the model has been tested, or to arrange testing.
